

Report Chair Historian

While in the previous biennium with the Centennial Anniversary the focus was on obtaining information and processing the history of Zonta, in this biennium it is important to collect and archive current data.

In order to be able to provide necessary information quickly in the future, it is important to define criteria for the content and to determine the type of storage.

Ideas, suggestions, and recommendations for relevant historical information and details from the clubs, areas, and the district are welcome.

To this end, an exchange with historians from other districts as in the previous biennium would be helpful and desirable and is aimed at.

Future challenges

Considerable activity should be put on:

- Collecting relevant data of all areas in District 28
- Data storage e.g. e-archiving

August 2021, Wiltrud Walther
