

Report Chair Leadership Development

The District Leadership Development Chair is now for the 2nd time established in D28, it works closely with the District Governor and Zonta International Leadership Development Committee, to ensure all members of Zonta from Club to District level have the opportunity to receive ongoing leadership and personal development training.

In this biennium we focus on the implementation of the W4W Mentoring / Godmother program. This program should enrich the efforts and access for all Zontians in our district to self-learning, group presentation and Club activities. It also is designed to support Zontians of all ages & interests on whether they want a mentoring relation for their personal development or they want to engage with another Zontian to learn about Zonta internals in case they are new joiners or do not feel well equipped with enough Zonta knowledge to take a club/area leadership role. First time presentation of this program happens today. Special thanks go to Meike Rieken and Elena Federici Ballini who are supporting me on this program.

An investigation done in the last biennium in our District 28 clubs showed that we have a lot of interest in general learning and personal development topics. The International Leadership Development Committee recently prepared a lot of very good learning and training material on the Zonta International web-site. Please have a look there or come back directly with any learning, training and development question or concern on district/area or club level at any time – any feedback is highly welcome at all times!

This all in line with our vision to Empower – Recruit – Sustain and Praise!
