

## **Report District Conference 2025 Training and Education**

An overview (in English and Italian) has been created outlining where to find information and documents from District 28, the District 28 Areas, and Zonta International. Links to the relevant documents as well as information about the necessary passwords are also included.

A presentation on the responsibilities of area managers has been created ("Area Director Preparation"). This includes all important information for area directors, such as responsibilities, elections, planning and hosting area conferences, and links to important documents.
